

PLEASE HELP SAVE OLD MALTON'S COUNTRYSIDE & FARMLAND...

...protect the local farm and
food producing fields!

Say **NO** to
solar panels
on prime
agricultural
farmland

Save Old Malton • Save Our Countryside • Save Our Food

If you love walking, biking and enjoying the beautiful countryside, farmland and wild-life around Old Malton then please read on...

Say **NO** to 92,500 solar panels and battery storage plant on 180 acres of prime agricultural farmland. Taking away food production for 40 years!

A 3 generation family farm faces devastation!

Protect the tenant farmer who has farmed the land to the highest standards and kept to his side of the bargain!

DO NOT allow the floodgates for development to be opened. This is just the beginning of the proposal! 180 acres of solar now but 530 acres have been tested - potentially for future development?

This solar development **MUST BE** located on low grade land!
